

Sweet News

You are kindly invited to meet us at our booth at

Pro Sweets 2019

Cologne, Germany
27.01.2019 – 30.01.2019
Hall 10.1 / Booth C042 / D043

Managing directors Frank Temme and Heiko Kühn will gladly be at your service, accompanied by their skilled native speakers sales team as well as by French partner company Proform and Candy Recycling.

Exhibited item: LSK-5 - laboratory batch cooker

The machine **LSK-5** (laboratory batch cooker) will be exhibited at the booth (pictured right).

The LSK-5 is universally applicable and can be used for the production of fillings, caramel, toffees, chewy candies, jelly, hard candy and other masses.

The equipment with vacuum pump and scrapers in the cooking vessel offers a broad field of application for the user. With an optional version cooking under overpressure is possible too.

GET TO KNOW MORE AT PRO SWEETS – YOU ARE WELCOME!
